Policy

2. Prohibited Applications

2.10.3

Requirements

Your app and metadata must have distinct, substantial and legitimate content and purpose.

Your app must be fully functional when acquired from the Windows Phone Store and it must provide functionality other than launching a webpage.

Your app must not be unreasonably priced in relation to the functionality of the app.

Comments:

The application has limited or no functionality. The application is a clock app without any user interaction involved.

Result: Fail
